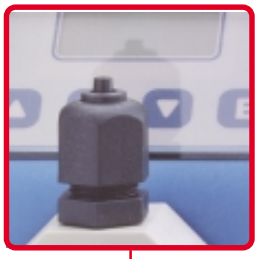
ATA S.r.l.

Metering Pumps



F SERIES

F & FMS DIGITAL

Stroke speed adjustment with fixed stroke length for low cost application.

Wide control opportunities without any external pacer such as pulse division and moltiplication, 4 ÷ 20 mA, mV, V input, timer and double timer.

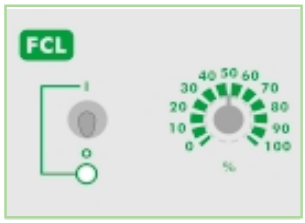
Features pH, ORP potential (Redox), Conductivity and cooling tower built-in controllers

FCO * FCL * FIS * FIC * FPV * FPVM * FTE * FPDR

F MODELS & CONTROL PANELS

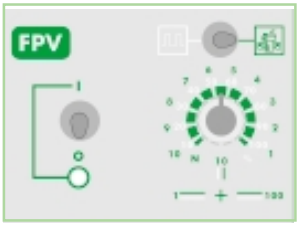
FCO

Constant pump with stroke speed adjustment



FCL

Constant pump with level control, stroke speed adjustment

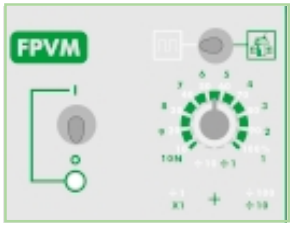


FPV

Constant-Proportional pump driven by external digital signal, with pulse divider mode

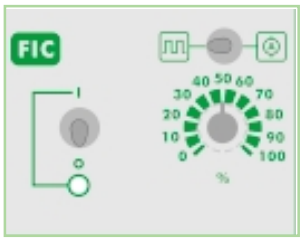
FPVM

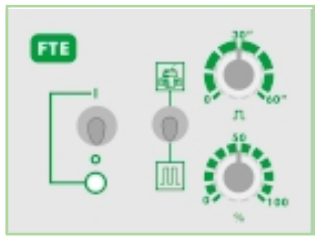
Constant-Proportional pump driven by external digital signal with pulse division and multiplication



FIC

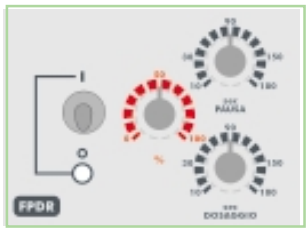
Constant-Proportional pump driven by current signal (0 / 4mA = 0 pulses; 20mA = max pulses) and level control





FTE

(0”÷60”) timered pump with external digital start signal and level control



FPDR

Metering pump with adjustable operation and stand-by timers

FIS

Constant-Proportional pump driven by external digital signal, with level control: to each external pulse correspond one pump stroke

	FCO	FCL	FIC	FIS	FPV	FPVM	FTE	FPDR
Input Signals	None	None	mA current	Digital Pulses	Digital Pulses	Digital Pulses	Start Pulses	None
Internal Controller	Stroke speed	Stroke speed	None	None	Pulse Divider	Pulse Divider and Multiplier	Internal Timer	Dual Timer
Alarm output	Level on demand							

FMS EN * FMS PH * FMS RH * FMS CD * FMS CDT

FMS DIGITAL MODELS & CONTROL PANELS

FMS EXT

Multifunction-Proportional pump with analogic/digital signal input and level control

FMS EN

Pump with weekly timer, microprocessor, digital controls, LCD display, level control and electrovalve control output

FMS PH

Proportional pump driven by internal built-in pH meter (0÷14pH) and level control

FMS RH

Proportional pump driven by internal built-in Redox (ORP) meter (0÷1000mV) and level control

FMS CD

Proportional pump driven by internal built-in Conductivity meter (0÷20 mS), supplied with Conductivity probe (mod. ECDCC) with automatic temperature compensation

FMS CDT

Proportional pump driven by internal built-in Conductivity meter (0÷20 mS) for cooling tower applications, with a set point for bleed electrovalve and a set point for feeding. Supplied with Conductivity probe (mod. ECDCC) with automatic temperature compensation

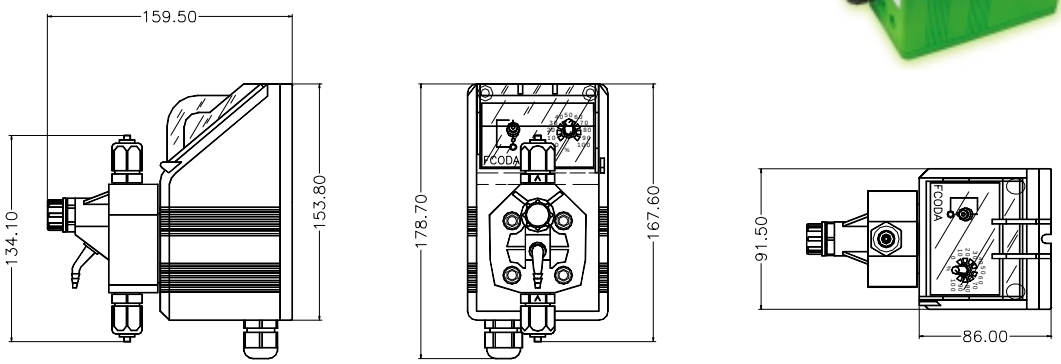
05 0,2	0,2	5	0,9	2,5	0,25	15	4 x 6	16 W	2,2

Flow rate indicated is for H_2O at 20 °C at the rated pressure.

Power Supply: 115 - 230 - 24 VDC.
On demand are available other power supply.

F Series are available in PVDF and PP pumps heads. All pump heads are also available with self-venting feature.



All dimensions are in *mm* unless specified.
